OUR LUCKY NUMBER 19

OUR STORY

It all started in building number 19, a group of friends came together to change the world through the power of design. Our customers are like family, when they're happy we feel lucky! Together, we went through thick and thin to provide impeccable customer satisfaction and masterful designs. We think we're lucky for what we've been through and what we're yet to achieve.

OUR MISSION

**“We aim to change the world with the
power of design”**

-Nineteen

OUR VISION

Our love for furniture started on the high streets learning from every furniture workshop craftsman and their passion for the craft.

Every design feature is lovingly and carefully crafted by hand.

At Nineteen, we always keep those principles in mind while creating our own, delivering that warm experience while making sure that every product is an instant classic.
